BUILD ON OUR REPUTATION

select Nordman !

A Nordman Profile Tilesheet roof is an investment, increasing the value of your home or building, offering weather-tight protection for your valuable asset for many, many, years to come.

- **attractive appearance**
- **ideal for both new & re-roofing projects**
- **maintenance free**
- **no moss growth**
- **no leaking**
- **no distortion**
- **no threat of wind damage**
- **no noise**

Nordman Profile offer you the roofing of the future- the tilesheet consists of a coated steel sheeting with the appearance of traditional tiles, offering timeless elegance and a classical profile which enhances buildings of all environments.

The tilesheet is manufactured from 0.5mm galvanized/ aluzinc coated steel. It is coated with durable, corrosion resistant Plastisol. An incredible lightweight 5kg/m means tilesheets are only one tenth the weight of concrete tiles and a quarter that of artificial slates.

When re-roofing with Nordman Profile, the lightweight yet strong tilesheet, structural reinforcement is rarely required and minimum disruption is caused.

available in grey, brown, black, brick red and olive green

A comprehensive range of accessories is available to suit the most challenging of roof constructions

technical data

Weight 5kg/m
Cover Width 1050 mm

Tilesheets are an Irish made product with a 20 year Guarantee subject to fitting in accordance with Nordman's installation instructions. Our product is the first I.A.B. approved Tilesheet and the only roofing tile in Ireland or the U.K. with agreement certification for use down to 4°.

A Nordman Profile Tilesheet roof is an investment, increasing the value of your home or building, offering weather-tight protection for your valuable asset for many, many, years to come.

traceability

This is a requirement of the new European Product Standards. To allow for this each Nordman Tilesheet is branded on the reverse side specifying steel suppliers and Nordman's technical details. Traceability provides support for the Nordman Profile Guarantee and protection for the architect, specifier and building owner by preventing product substitution.
